AVANT DE COMMENCER !

Ta ville en 4 etapes — super facile

1

IMPRIME

Imprime toutes les planches sur du papier epais (ou colle-les sur du carton de cereales !).

2

DECOUPE

Suis les lignes pointillees avec des ciseaux. Demande de l aide pour les petits details !

3

PLIE

Plie les languettes a la base des batiments et personnages : hop, ils tiennent debout !

4

CONSTRUIS

Assemble tes routes sur le sol ou un grand carton, pose ta ville... et fais rouler !

LE MATERIEL

Ciseaux + colle + carton recycle. Astuce pro : plastifie les routes avec du ruban adhesif transparent, elles dureront des annees !

ROUTES DROITES

8 segments — la base de ta ville

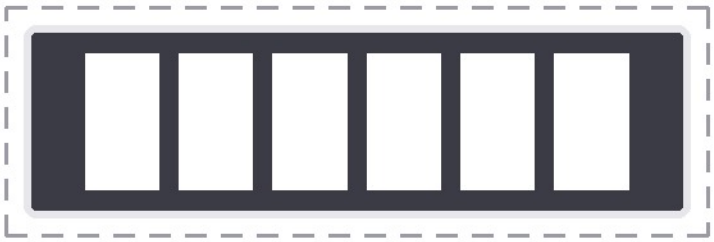

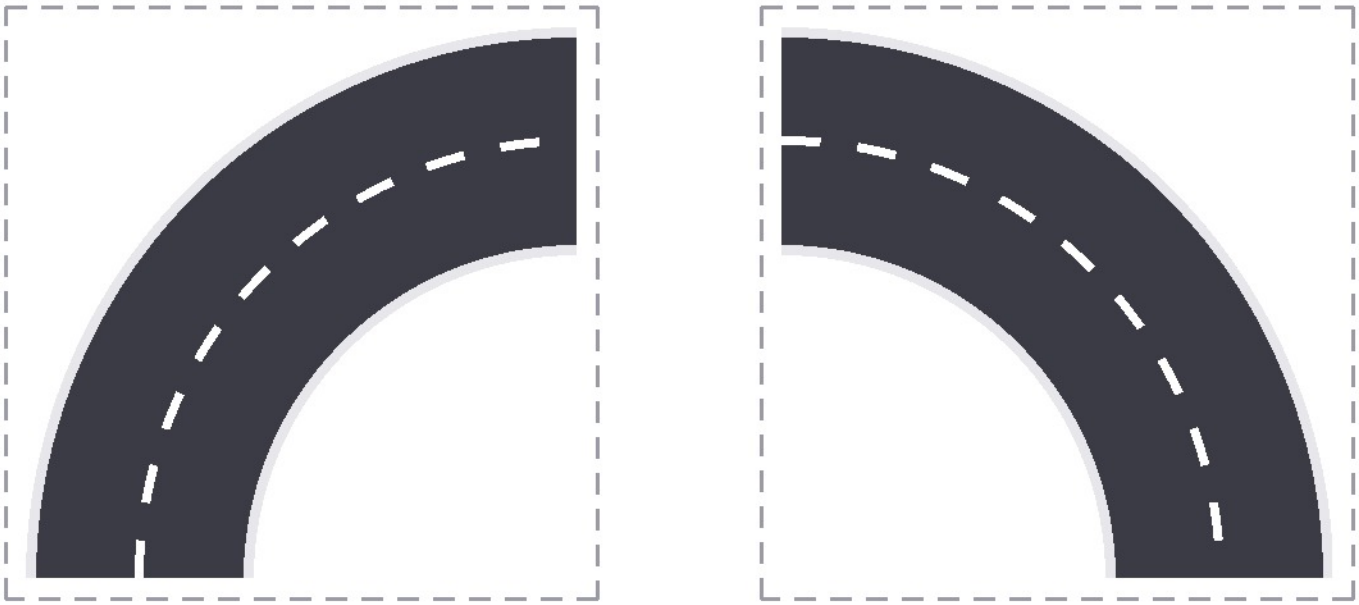

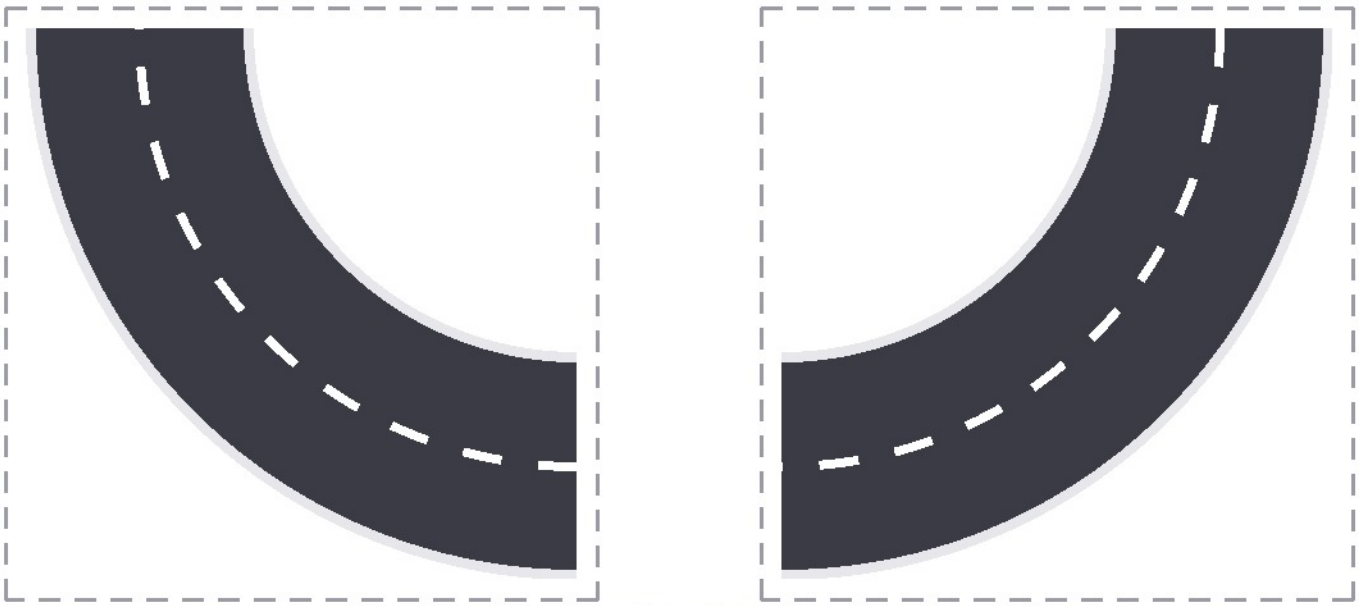

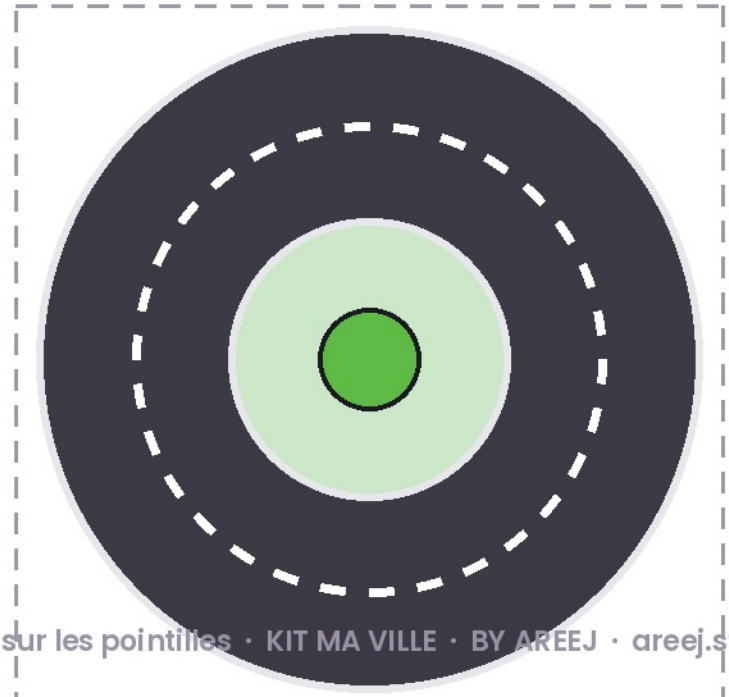

VIRAGES & ROND-POINT

4 virages + 1 rond-point geant

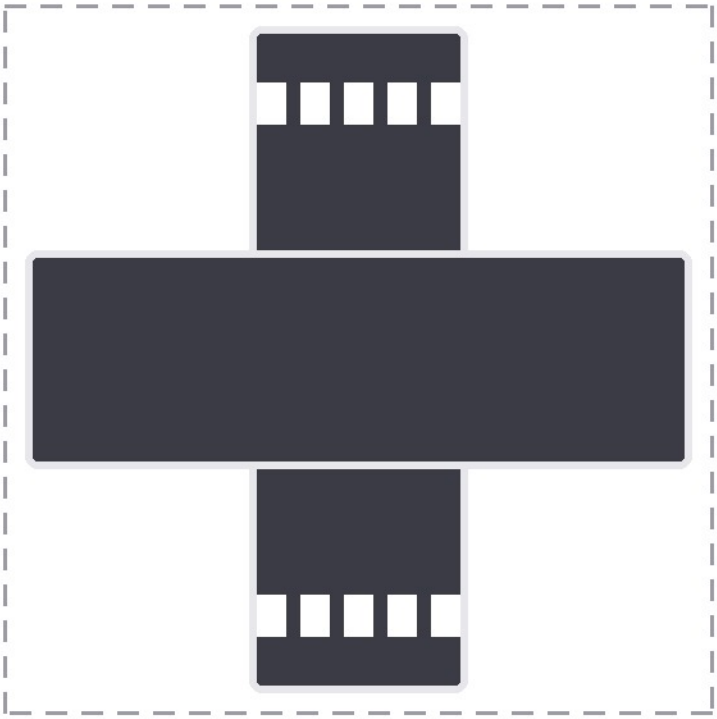

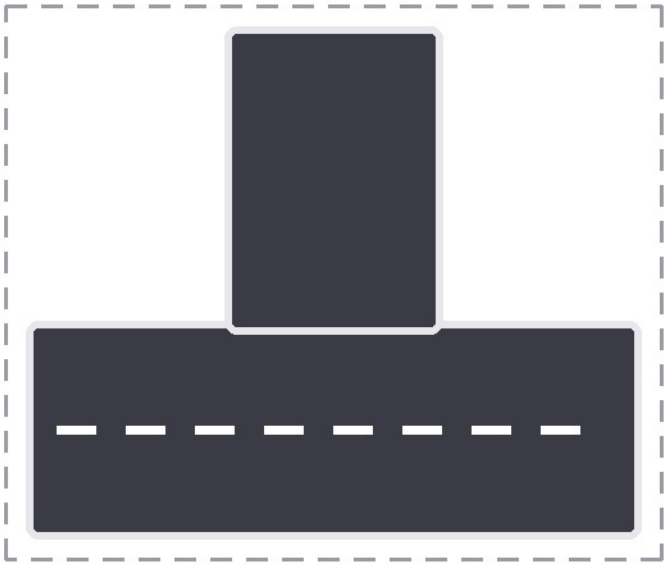

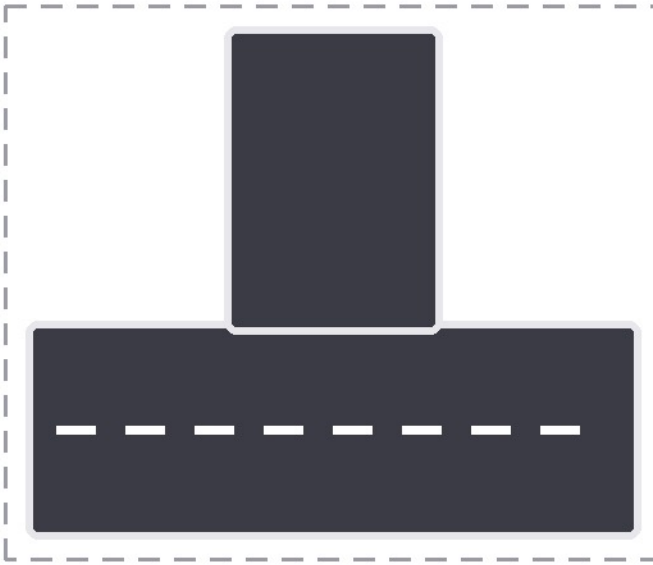

CARREFOURS

1 croisement + 2 intersections en T

FEUX & LAMPADAIRES A PLIER

Plie au milieu : ils tiennent debout tout seuls !

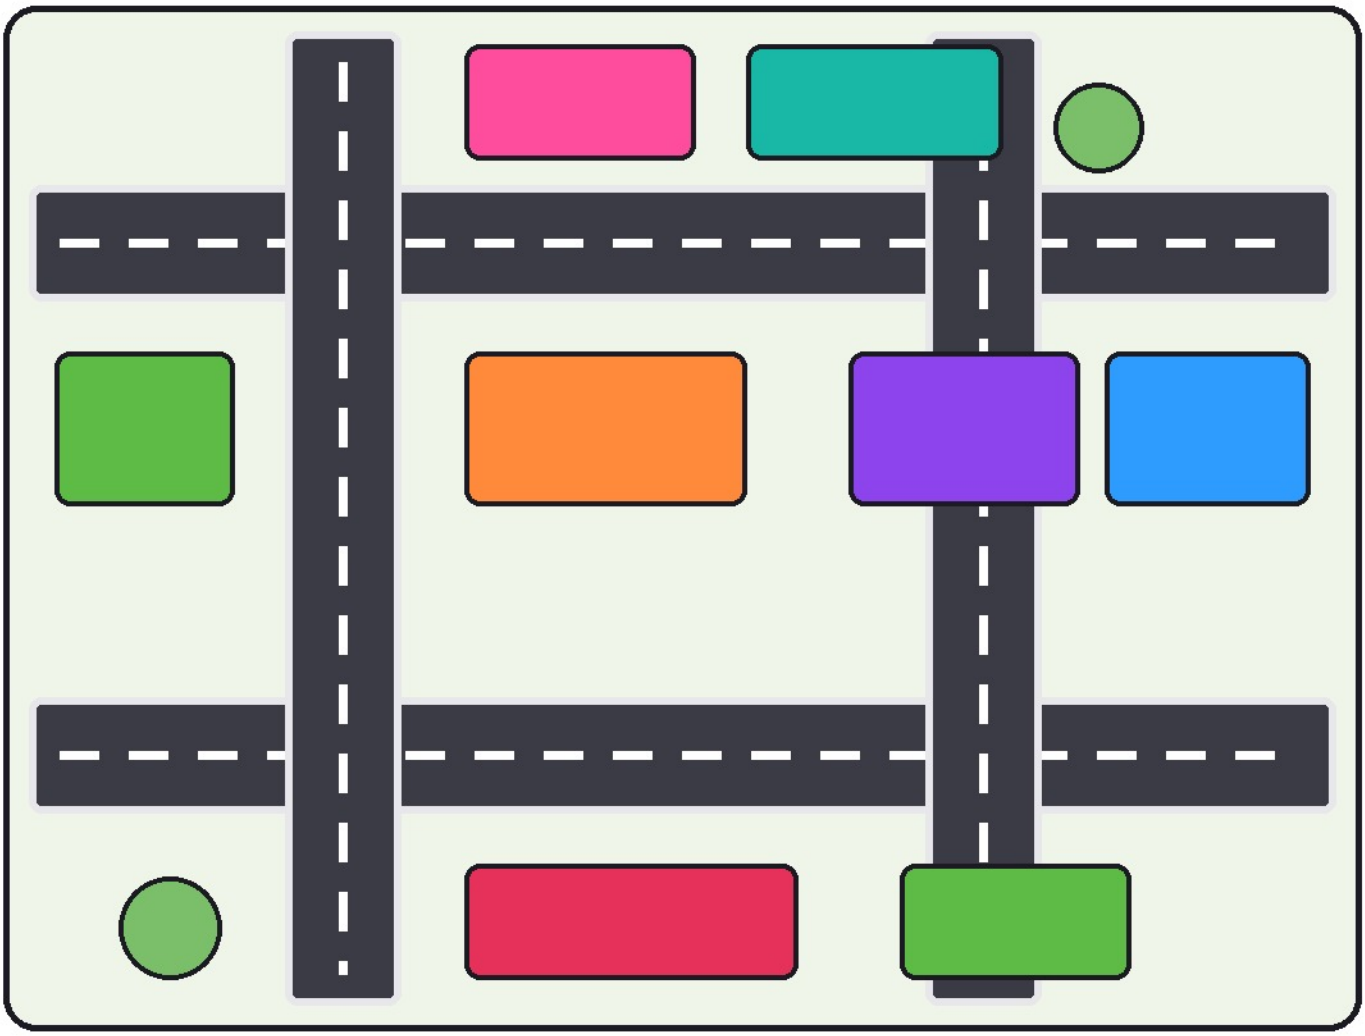

FEU LAMPE FEU LAMPE

COMMENT CA MARCHE ?

Decoupe la bande entiere, plie sur la ligne du milieu, colle les 2 moities dos a dos : ton feu est visible des 2 cotes et tient debout !

IDEES DE VILLES

Copie ce plan... ou invente le tien !

LA PETITE VILLE

2 routes + 4 batiments + 2 voitures : parfait pour commencer.

LE GRAND CIRCUIT

Relie tous les virages pour faire une boucle sans fin !

LA COURSE

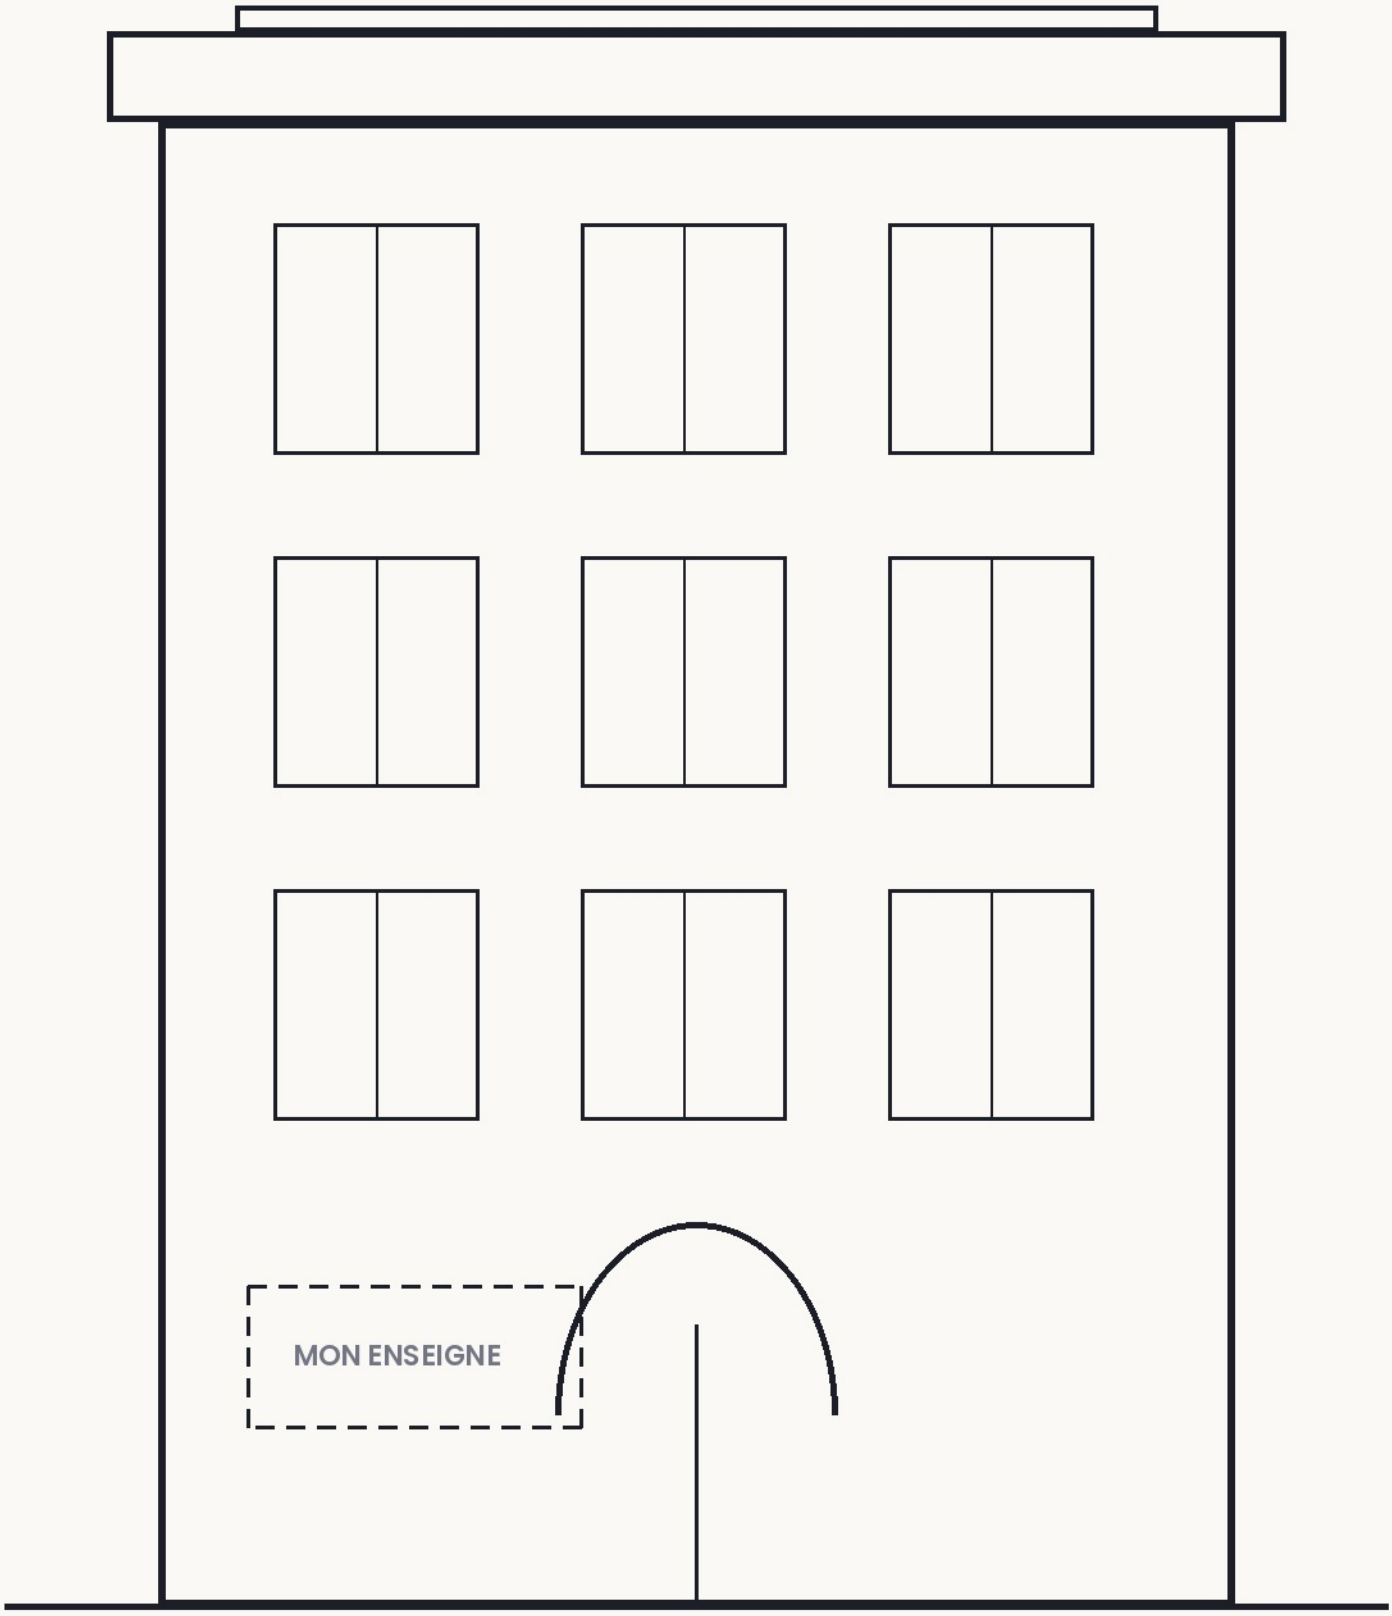

2 joueurs, 2 voitures : le premier au parking a gagne !

VILLE GEANTE

Imprime les planches routes 2 ou 3 fois et envahis le salon !

MA FACADE GEANTE

dessine, colorie et decore ton batiment

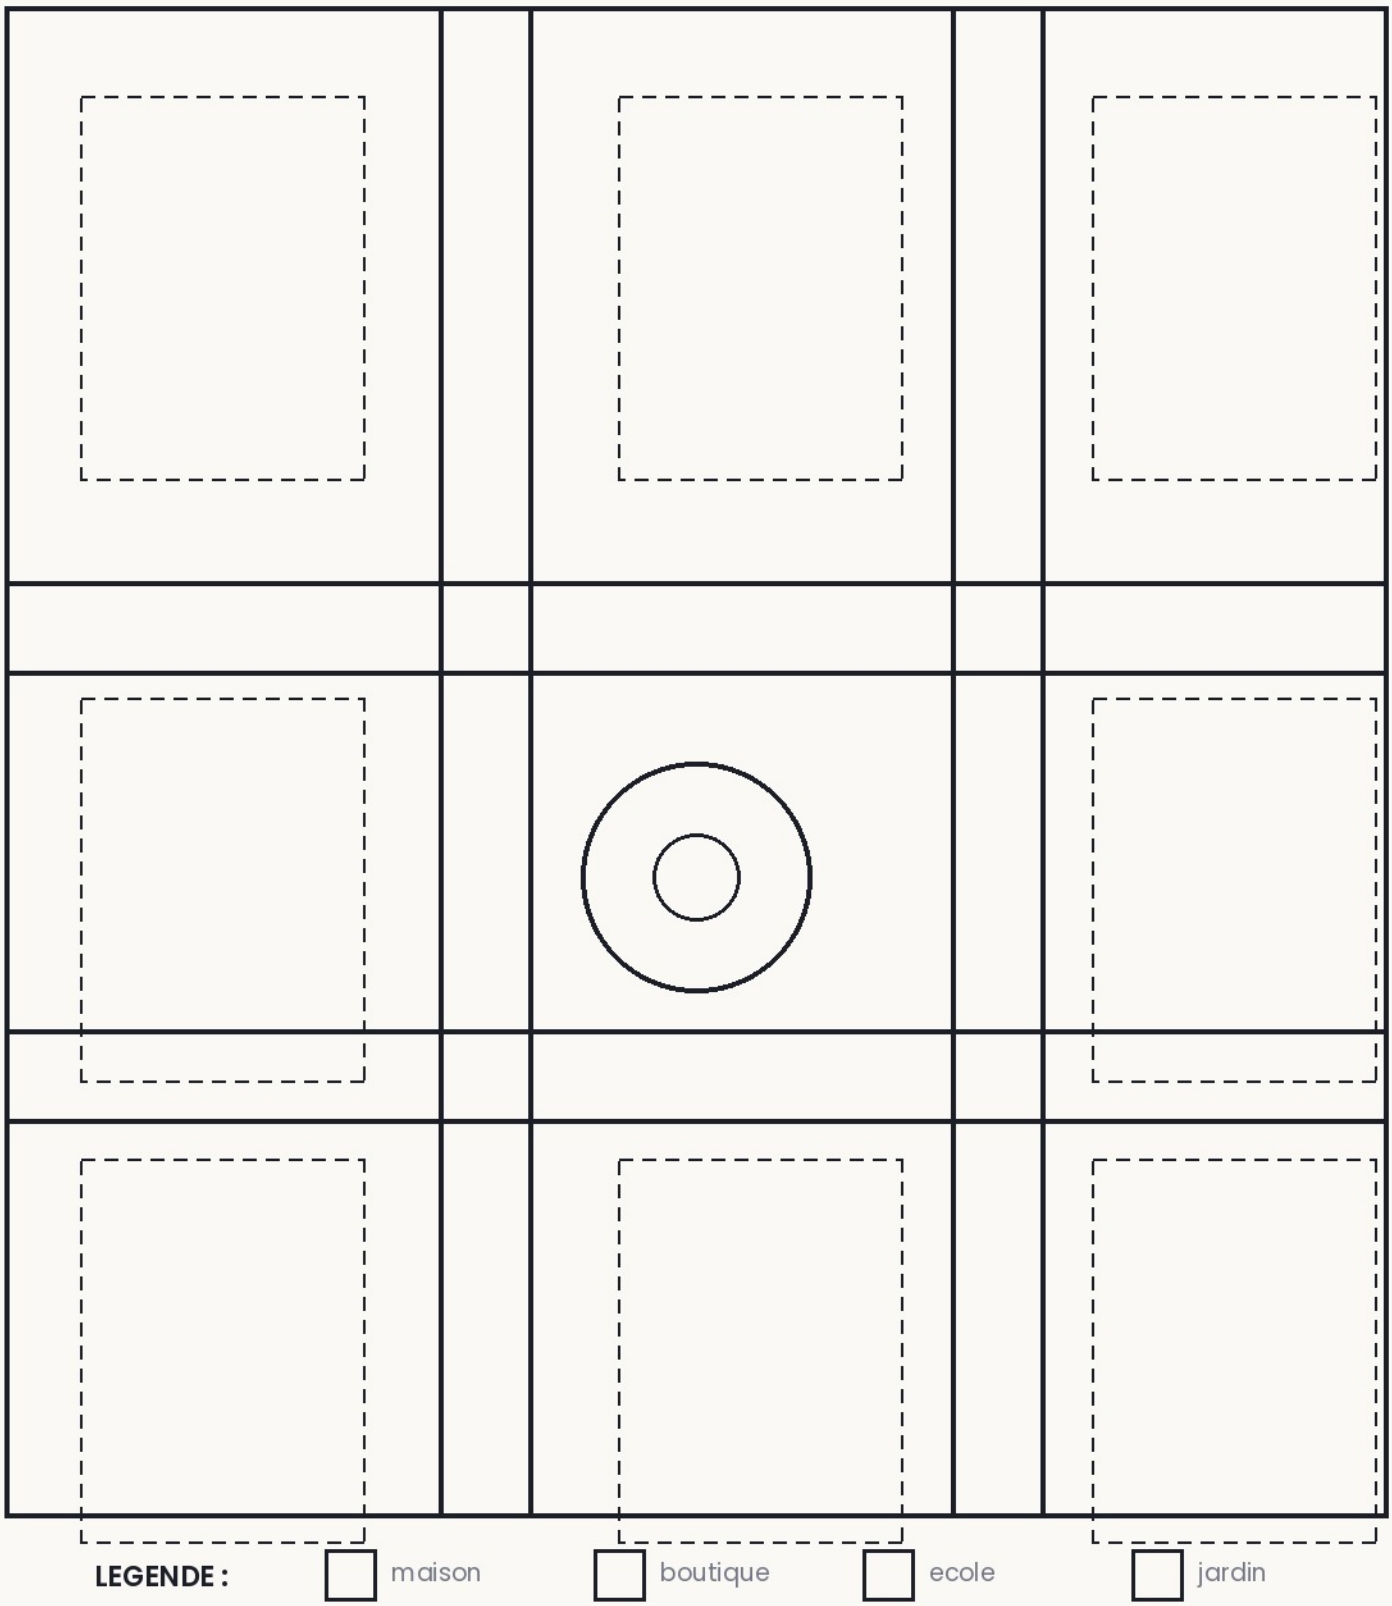

MA PALETTE :

IDEE : chaque etage une couleur – et une enseigne qui brille.

MON PLAN DE QUARTIER

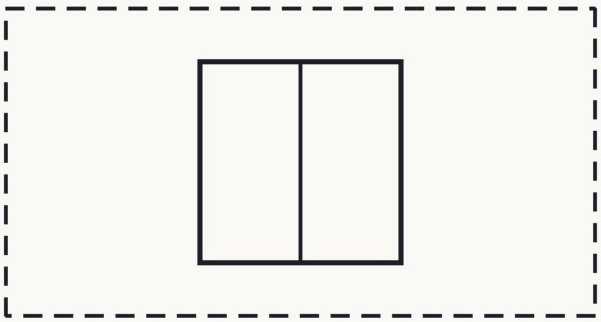

trace tes rues, place tes batiments

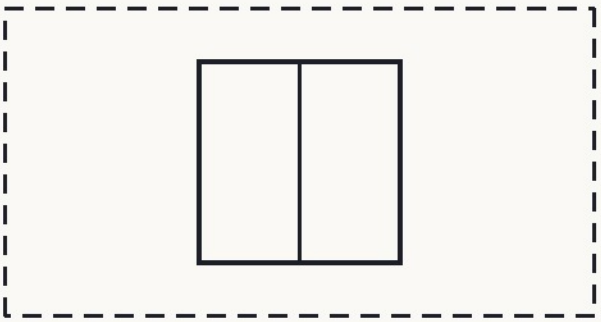

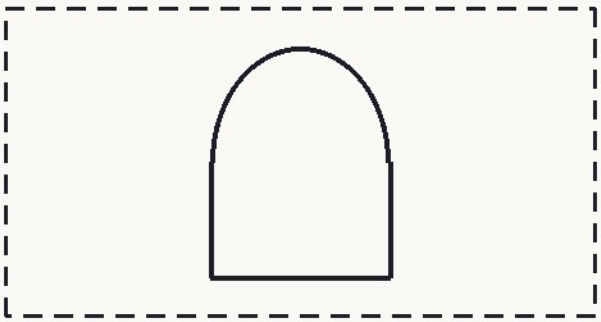

IDEE : les cases en pointilles = tes batiments. Le rond = la place du quartier.

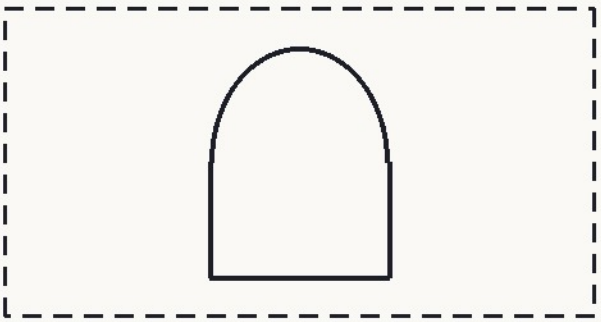

FENETRES & PORTES A DECOUPER

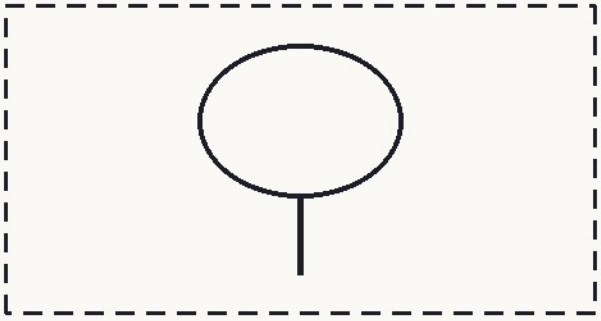

decoupe et colle sur ta facade

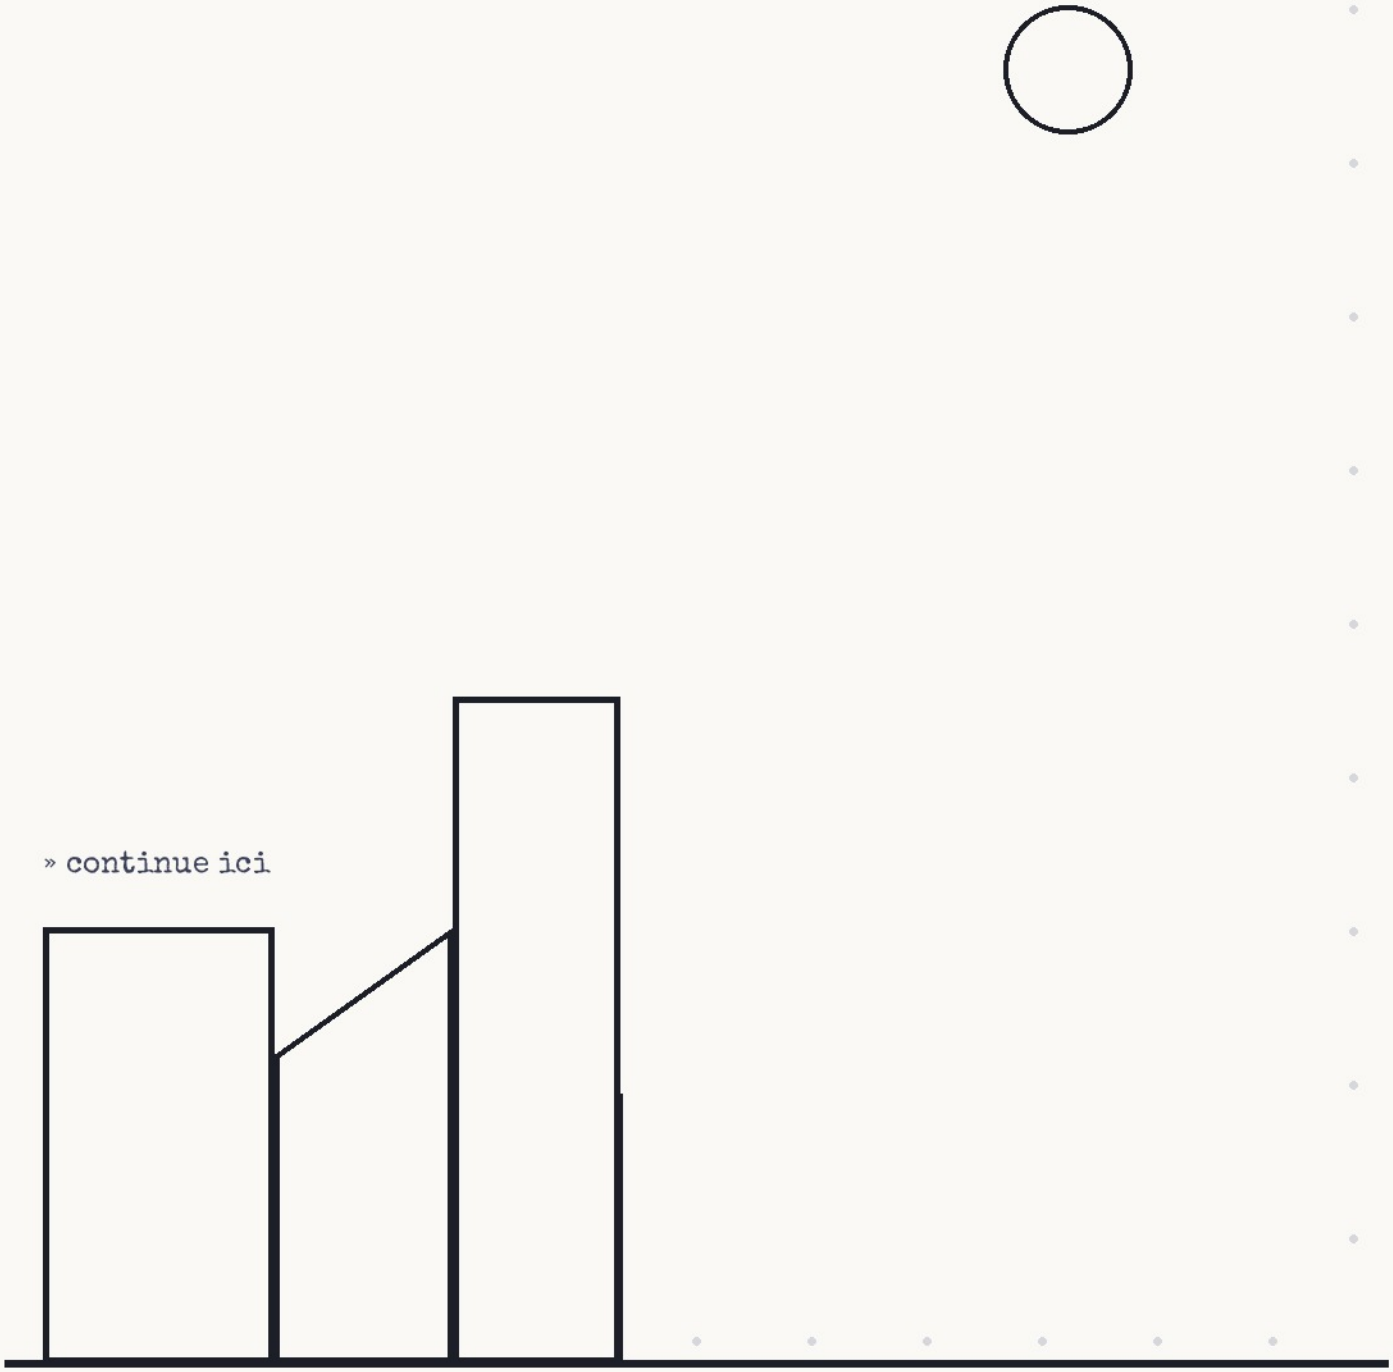

TA CREATION : dessine ici ta propre fenetre puis decoupe-la

MA PALETTE :

IDEE : plie une languette en haut de chaque piece pour la coller.

MA SKYLINE

continue la ligne des toits de ta ville

MA PALETTE :

IDEE : tours, minarets, coupoles... plus c est haut, plus c est fort !
